Dear Councilmembers,

I want to urge you to support the Harmony Homes project that will be on your December 2 Council agenda. As you are well aware, homelessness has increased in Lodi. This project is a model for addressing the need for affordable housing to help stabilize people who are struggling with homelessness. Since it is a small development, it can serve as a critical test for measuring the success such housing can provide. This project has everything going for it: State funding, an attractive design, oversight, and a company with a proven track record managing the property.

Please vote YES for Harmony Homes.

Thank you for your time. Happy Thanksgiving to you and your families. Stay safe!

Dear Lodi City Council Members:

I'm writing you in support of the Harmony Housing Project.

Before moving to Lodi 30 years ago, I worked for Catholic Charities of the Archdiocese of San Francisco. Since moving to Lodi, I have been a volunteer board member of Lodi House. Both of these organizations are dedicated to ending the cycles of homelessness in our communities. They both know that the key to ending homelessness is a hand up via housing and supportive services. They also know that this is the tried and true manner in which the homeless cycle can be broken. And, unfortunately, they know that the need for homeless housing and services is greater than the opportunity.

The Harmony Homes Project does just that. Charities and Lodi House has proven through rigorous screening, supportive services and love just how to Successfully tackle homelessness locally. Harmony Homes has developed a plan that can do just that.

Please consider strongly supporting the Harmony Homes Project so Lodi can walk the "Lovable" talk in its mantra.

Sincerely and thanks for your consideration,
Carol Farron

We strongly support Harmony Homes as a way to begin addressing the growing number of homeless in our community. The concept and location appear to well thought out.

Respectfully submitted,
Dr.Kenneth and Nancy Mullen

Dear City Council,

I would like to voice my support in favor of the proposed Harmony Homes project. I feel this is a positive step in the right direction to address the housing needs of our low income residents. I encourage you to vote in favor of this project. Thank you.

Sincerely,
Jeffrey Pell
